. INSPIRATION! .

'We delight in the beauty of the butterfly,
but rarely admit the changes it has gone through
to achieve that beauty.'

Maya Angelou

BLUE... calming, secure, serene, peaceful... how could we live without this color? This scene is magical, butterflies illuminated in soft light elevating their beauty.

A Statement in BLUE !

This Space works really well because:

- The key accents in this office are the area carpet & desk chair. Their blue coloration sets the tone.
- Notice how the remaining elements maintain a neutral background creating a calm that is perfect.
- With video conferencing so important today it is good to keep backgrounds professional and not too busy.
- The organization of this space supports motivation and focus that will result in an excellent work day.

This paper sculpture by artist, Gabby O'Connor is titled "What Lies Beneath" and has made him famous. It is created of thousands of small paper triangles that are dyed in shades of blue which imitate an iceberg.

I love the updating of this vintage furniture. Using textured wallcovering on the drawers and painting them a great blue provides an entirely new personality!

With my every best wish...

She made broken look beautiful
and strong look invincible.
She walked with the Universe
on her shoulders and made it
look like a pair of wings.

Ariana Dancu's poetry is exquisite. Somehow when I read her words I think of my life and struggles that I have encountered and feel stronger because I have survived them. All the sadness and heartache the human race endures is the catalyst behind building character. In times of conflict we focus on what is truly valuable and ultimately shine a light on our path forward.
