. Adventurous Canyon Coral for 2021!! .

. INSPIRATION! .

'We must take adventures
in order to know
where we truly belong.'

Sue Fitzmaurice

This an image of 'The Wave' in Arizona. These massive formations have been carved into the sandstone of the Vermilion Cliffs National Monument by wind erosion. Who knew the wind had a sense of design? This fragile beauty is being protected and a limit of 20 visitors per day helps in this endeavor.

. ART .

This painting by Malcom Brown is sensitive in color, form and attitude. Brown began his career as an arts educator at Shaker Heights High School. Brown was elected to membership in the American Watercolor Society, the most prestigious organization for watercolorists. His works can be found in the collections of the Cleveland Museum of Art, the Springfield Art Museum, Coca-Cola, and Progressive Insurance, among others.

. INTERIOR DESIGN .

A Statement in Rusty Coral !
This Space works really well because:

- A solid commitment was made in the strong color

selection which gives this room personality!

- This is an analogous scheme, which means the colors are next to each other on the color wheel and naturally flow together from one to another.
- Notice how the golden quilt and yellow flowers help to warm up the space with a cheerful note of color.
- White window trim and the neutral, stained wood surround of the bed add perfect balance.

. PAPER ART .

Cut & snip away... there are so many beautiful creations that you are able to form with paper. Be inspired by the natural world around you. I have attached a link of just a few of our Custom Paper Floral Projects.

. PAINTED FURNITURE .

I love this chair by Anthropologie!! It is simply a happy chair to have and to enjoy. I have attached a link to their site... however, you may use it for inspiration too. Study patterns and don't be afraid to be adventurous and try to recreate them for yourself. Paint is the most marvelous creative medium!!

With my every best wish...

"Do what you like. Like what you do."

Sounds so simple... right? Yet, I know first hand how difficult this advice can be to follow. There have been many moments in my career when it was a struggle to see the light at the end of the tunnel. I loved my profession, but longed to be more creative and artistic. I did incorporate art into my life... somehow I squeaked it in... a little here & a little there. I never lost my passion for color, design, creativity and dreams of my next art project. I surrounded myself with inspiration found in magazines, pictures of the art I admired of others. I encircled myself with dreams until I could make the real dream come true. Patience, dovetailed with determination & vision, will get you there. Never give up your quest for 'doing what you like' & love! & Be Adventurous!

...with my every best wish, Barbara
