. INSPIRATION! .
Dainty Leaves of Fall !

When I saw this picture it made my heart skip a beat.
Let's face it... who does color better than Mother Nature?
Whenever you are questioning combining colors, look to
nature for answers. You'll never, ever go wrong!!

. ART .
Pure Color !

This painting was done by Georges Seurat, it is his most famous work. **'A Sunday Afternoon on the Island of La Grande Jatte'** is a stunning example of the Pointillism technique. Small brushstrokes of pure color are combined to create the perfect color when viewed from a distance. I love the golds & greens & accents.

. HOME DESIGN .
Is this a Gallery or a Kitchen ?

I think it is both!! This is one of my favorite kitchens. I love that it is most certainly a beautiful place to work. I also love the incorporation of ART!!

This room works really well because:

- The deep forest green is a bold statement and a totally unique statement about the family.
- The white & gray marble create a horizontal graphic statement that is very Contemporary.
- To balance the cool green, notes of warm brass have been added on hardware and faucets.
- Additional warmth is featured on the ceiling and island top creating a cozy atmosphere.

. PAPER FLOWERS .
Soft Gold & Green !

When creating your paper flower bouquets, remember you are able to combine any color combination you desire. This is another art form where you are able to let nature guide you with your color selections.

. PAINTED FURNITURE .
RED plus the Rainbow !

This is such a fabulous example of bringing an old element of furniture into the future. This is an Art Deco style cabinet. Only the wood on the top and the two front legs have been retained. A very handsome deep green is used on the body. A beautiful treatment of gold has been painted in free form to add a forward feeling. Let your imagination soar!! You will be rewarded!

With my every best wish...

I always try to incorporate something a little personal at the end of my messages to you. I was searching for something GREEN & GOLD... and happened to look at my counter and there was this jar. SO, I am sharing some of my favorite foods with you!! I have just discovered these Sweet Salad Peppers. Let me tell you... they are marvelous!! I put them on salads to make them more interesting. I add them to my vegetarian chili. I incorporate them into my veggie tacos. There is no end to my fascination with them!! Try something new for dinner tonight. Eat lots of veggies... they'll keep you healthy! Know how much I care about you... so, please

stay safe out there! With my every best wish... Barbara

P.S. I have had many new friends ask about my past messages; therefore, I have created a new section on my Website. It has past emails, in chronological order, and titled with the MAIN COLOR that is the focus of each message. ENJOY! We ALL need a little inspiration sometimes!!
