

EMERALD VIOLET

. INSPIRATION! .
My picture of the week...

We are all looking for cool escapes this summer. We might not be able to currently fly off to Paris, but we can

enjoy the beauty of her city gardens.

Think about GREEN:

- This color has the more variety than any other
- It is the color of youth, nature & envy
- It is an incredibly calming color
- Green is considered the color of safety &
- Some feel it is the color of 'Good Luck'

. ART .

Five Green Peas in a Pod !!

This artwork is created from little bits of paper. Those of you familiar with this art form will know that it is called 'Paper Mosaics'.

In some of my art I try to incorporate little pictures. There are frogs, peacock feathers, apples, leaves & all

sorts of little gems in this one.
The earth is rich with beautiful GREEN
elements in nature!

. HOME DESIGN .
Fresh GREEN for your next Project !

Another creative accent color for your home!
A Great Green!

My entire career revolved around color and how to
incorporate it into homes, commercial & industrial areas.
I was responsible for creative aspects of color & paint.

If you want to do something unique in your home,
consider the ease, flexibility and low cost of paint:

- In this kitchen all expensive finishes & surfaces are treated with neutral colors.
- Ceilings, walls, trim & island are all cool white.
- Stainless steel & black granite make statements.
- Shelving & stools are black for that industrial edge.
- Floors add a wood finish for a touch of warmth.
- The GREEN accent on cabinets is all paint. You can enjoy this approach and change the color to suit your change of decor very easily. [I know, easy for me to say... but I love paint & all the magic it can create.]

. PAPER FLOWERS .
A tiny accent of GREEN...

This little vintage wood block may be small in size; yet, it is just the gentle touch of green you might need. I found a small print of an Impressionist painting and used it for the front of the wood. Drilled a space that is to the left of center, deep enough to incorporate the stems of my bouquet. A little thistle, painted iris, sparkler mum, compass rose & paper leaf make it perfection!

. PAINTED FURNITURE .
Green with a little Zing !

This table is just happy. When I look at it I cannot be sad. If you would like to incorporate a fresh color at home, go ahead and paint happiness.

Our homes are becoming more important in our lives. Create the environment you want to live in. It is the best therapy, along with art of course.

With my every best wish...

Two shades of green... one in my top and another in my little Zachary's eyes. I am blessed to have this little guy to hug, although he may not agree 100% of the time!
