. INSPIRATION! .

"Sunsets are an example that
each day can have a beautiful ending."

Do you remember a moment in your life where you were

captivated by nature? I have those moments all the time. I look at a tranquil field with a blanket of fog hovering on the horizon; I see a bird contentedly sitting on a tree branch, seemingly happy just to be there.

This photograph is overwhelming in the way the sky, reflecting every glorious shade of peach, is softly mirrored on the beach.

Sometimes these moments in nature are rare... sometimes more familiar. The real beauty is being open to see them... to feel them, to realize how blessed we are each & every day... we only need to open our eyes.

. ART .

Peach colored roses convey sincerity, gratitude & the genuineness of your feelings...

When I encountered the artwork of Jacqueline Kamin I was captivated by the color and softness of her work. Her focus is on light. Her paintings are magical. I found an interview along with a segment where she demonstrates how she paints... I wanted to share them with you.

. INTERIOR DESIGN .
Making a statement with Peach !

Friendly & Fashionable PEACH !

This bedroom space works really well because:

- The selection of an undeniable peach wall color is a confident & perfect selection for this room.
- An area carpet softly incorporates the peach & is joined with perfect neutrals to make a beautiful statement.
- Warm neutrals adorn the crib & mirrored dresser to

balance out the amount of color on other surfaces.

- Softer warm whites on trim & upholstery selections make this a fresh & gentle environment.

. PAPER FLOWERS .

A little wrinkle...

Honestly, I have not tried making paper flowers with crinkled paper... but as soon as I have a chance I am going to try this. There is something fascinating about the texture. As soon as I make a few blossoms, in peach or another color, I'll share with you. Promise.

. PAINTED FURNITURE .
Perfectly Paired Peach !

What I love about these chairs is how Contemporary they become with the use of this peach and the accent of a matte pewter metallic at the base of the leg. This is an excellent way to update your furniture. Simple to do with absolutely stunning results.

With my every best wish...

This week I realized that I really needed a new pair of shoes. As I searched for the perfect pair my eyes landed on these stunning peach heels, with accents of glistening crystals adorning the trim. My heart skipped a beat... these were made for me!! The whole world seems better when I am wearing the perfect pair of shoes. When I speak to an audience they make me feel invincible! They have been my armor. However...

...the reality is that I left the store with a pair of shoes that looked a lot more like these peach running shoes. I was very sad to leave the heels behind... but what I bought was what I really needed.

Maybe I am learning that I am actually stronger than I knew... and that I don't need those peach heels to empower me. Maybe I am becoming strong enough to know what I really need in this world.

We need **Joy** as we need air.
We need **Love** as we need water.
We need **each other** as we need
the earth we share.

– Maya Angelou

During these challenging moments... maybe we can all learn more about ourselves & what we truly need in life. And in doing so, we are able to be stronger & give back to the world the best of ourselves.

Please stay safe & healthy!
I hope you discover everything you need ...

...with my every best wish, Barbara
