. Yummy YELLOW !! .

. INSPIRATION! .

'Flowers always make people better, happier, and more helpful; they are sunshine, food and medicine for the soul.'

Luther Burbank, American Botanist

This spectacular vision of daffodils looks like it comes from a far away place. Actually, it is located right here in Cleveland at Lake View Cemetery. Visiting a cemetery is not top of mind; yet, they are beautiful and thoughtful. While I was in Art School I fell in love with the design,

history, horticulture and grace of these spaces.

. ART .

It is undeniable that yellow is the feature color in this painting by Ernest Lawson. It represents the morning and glows with the beauty of yellow. This color has the ability to radiate a message of warmth and sunshine, along with an optimism about what is ahead.

. INTERIOR DESIGN .

A Statement in YELLOW !

This Accent Area works really well because:

- The space takes advantage of a singular color to pull it together. The yellow gold on the wall has been matched to the upholstery on the chair. It is totally unified. Even with the warmth and strength of this color, it is calm because it has been combined with the white and neutral tones.

- Notice how the wood elements of the rustic accent table and the floor bring a quiet touch to this area.
- I like the use of white & black to add interest that does not take away from the bold color. It is fresh and bold and perfect.

. PAPER FLOWERS .

Soft yellow intermingles with white and pink to make the sweetest statement and a very yummy little bouquet.

. PAINTED FURNITURE .

An antique cabinet is brought into the future with the incorporation of yellow on the exterior surface and a contrasting navy on the interior.

I love the way we can use color to create and accentuate the depth of rooms and furniture. Using a deeper color on the interior space adds the appearance of distance as well as a perfect background for elements that are featured as they burst forward with character.

**TO PLANT A
GARDEN IS TO BELIEVE
IN TOMORROW.**

Audrey Hepburn

This quote from Audrey Hepburn is insightful. When we take actions, like planting a garden, where we must wait to see results, underscores our faith in the future. Gardens, children, simplicity, pasta & chocolate were

among Audrey Hepburn's most treasured essentials. I have attached a link to perspectives about this marvelous woman which includes her insight on the above, photographs and even a recipe of her 'Penne alla Vodka.'
